

SDET Assignment - Day 21 Solution

Solved Any 2 Use Cases: Login Functionality and Registration Form

Use Case 1: Login Functionality

TC ID	Test Scenario	Test Steps	Test Data	Expected Result
TC_LOGIN_01	Login with valid credentials	Enter valid username and password, click Login	Valid username & password	User should login successfully
TC_LOGIN_02	Login with invalid credentials	Enter invalid username/password, click Login	Wrong username/password	Error message should display
TC_LOGIN_03	Login with empty fields	Keep username and password blank, click Login	Blank fields	Mandatory field message should display
TC_LOGIN_04	Password masking	Enter password in password field	Test@123	Password should be shown as dots/asterisk
TC_LOGIN_05	Forgot Password link	Click Forgot Password link	Valid email	User should be redirected to reset password
TC_LOGIN_06	Account lock after failed attempts	Enter wrong password multiple times	Wrong password 3/5 times	Account should be locked temporarily

Use Case 2: Registration Form

TC ID	Test Scenario	Test Steps	Test Data	Expected Result
TC_REG_01	Mandatory fields validation	Keep required fields blank and click Submit	Blank fields	Required field validation should display
TC_REG_02	Valid email format	Enter correct email format	test@gmail.com	Email should be accepted
TC_REG_03	Invalid email format	Enter wrong email format	testgmail.com	Email validation error should display
TC_REG_04	Password strength validation	Enter weak password	abc123	Weak password error should display
TC_REG_05	Mobile number validation	Enter less/more than 10 digits	98765	Mobile number error should display
TC_REG_06	Duplicate registration	Register with already used email/mobile	Existing email/mobile	Duplicate user error should display
TC_REG_07	Submit with valid inputs	Fill all details correctly and click Submit	Valid details	User registration should be successful
